

–Vallejo, CA– February 11, 2018 - Update Two –

The City of Vallejo continues to monitor the Swanzy Reservoir issue, pumping in clean water and flushing the impacted area. The problem was isolated. Residents are advised to eliminate water usage as much as possible until further notice to reduce the amount of sediment and dirt entering their pipelines.

Previously released Information:

- Approximately 1000 households are impacted.
- Area: Lemon Street to Highway 780 to Laurel Street and South to Pueblo Way, west to Porter Street and north back to Lemon Street.
