REBUTTAL TO ARGUMENT AGAINST MEASURE B

As our City emerges from bankruptcy, we must take action to ensure our future success – now is the time for our community to ACT to create a bright future for Vallejo!

By voting **YES on Measure B**, we are working together to invest in Vallejo through a **balanced** approach.

Unlike those opposed to providing a bright future for Vallejo, we have a plan to rescue our City.

Measure B is ONLY about <u>REBUILDING OUR CITY</u>. It is not about getting our "fiscal house" in order or about making "tough choices".

Voting Yes on Measure B is the only choice for IMPROVING our QUALITY OF LIFE and boosting OUR **Economic Recovery**.

Don't be fooled by naysayers. Over the past 4 years we made the tough choices. We reduced the cost of employee contracts while reducing costs by consolidating City departments and services with outside agencies. We have a balanced budget plan for the next five years.

Vallejo's sales tax WILL NOT place our existing business at a disadvantage.

Vallejo's sales tax WILL NOT apply to most food products or services.

The question for you is simple: "Do you want to **fix** pot holes, **restore** an adequate level of Police and Fire services, **provide** for our youth, seniors, the arts and other **quality of life** services to move Vallejo **forward**?"

Measure B is the way to **rebuild our city**. It will not cost you a penny more in sales taxes than you have been paying.

Please vote YES on Measure B.

/s/ Osby Davis, Mayor, City of Vallejo /s/ Michael Wilson, Vice Mayor, City of Vallejo
