

D1 Light Up Vallejo!

A Lighting Improvement Project

In an effort to improve public safety, 40 new street light poles and decorative tree lights will be installed across Vallejo.

Cost \$170,000
Location Public and residential areas across Vallejo

Who Benefits
EVERYONE will benefit from new streetlights and tree lights because they will be installed in residential and public areas across the city allowing for safer pedestrian traffic and better nighttime visibility.

Project Description
In response to Vallejo citizens’ concerns about dark and unsafe streets, the Light Up Vallejo! project proposes the installation of 40 new street light poles, as well as more decorative tree lights downtown.
