## Kayak Storage Available Now...

We have completed a kayak storage rack on I dock. Tell your friends, they can now pay a small monthly fee to store their kayak here at the Marina. No more hassle of loading and transporting your kayak by car...

Contact the Marina Office for details.

## Please move back to your assigned slip...

Those of you that were displaced due to the dredge need to move back to your assigned slip or we will have to charge you for the slip you are in.

## Dock Carts

We have purchased carts for every dock. Some of the docks have had numerous instances where the carts were not returned. Please keep in mind that this is a convenience for everyone, and return the carts to the inside of the locked gates so that they are not stolen.

## Clean Marina On Its Way

*Please help us keep our Marina clean...*

The Vallejo Marina team is making enormous strides to beautify our marina. We are in the beginning phases of developing a "Clean Marina" plan to ensure that we are in compliance with all State and Federal laws, rules, and regulations. This will include mandatory pump outs of all live-a-boards (yes, even if you have a porta-potty). The only exceptions are that in which your system has had a recent inspection and Marina Staff has placed a seal on your valves.

Many of you already have a contract with a mobile pump out service. If you already have a mobile pump out service we would appreciate it very much if you would provide the office with your pump out schedule and logs. If it is more convenient, you may email the information to Kimberley in the office at: [klindo@ci.vallejo.ca.us](mailto:klindo@ci.vallejo.ca.us)
